AI/ML STUDENT | GENERATIVE AI | AI TOOLS | PROMPT WRITING

CAREER OBJECTIVE

Final-year AI/ML engineering student interested in practical applications of generative AI, AI tools, prompt writing, content creation, and AI-assisted workflows, with a goal of building strong real-world experience in AI-driven business activities.

EDUCATION

St. John College of Engineering & Management, Mumbai, India | B.E. Artificial Intelligence & Machine Learning | 2023–2027
CGPA: 8.7/10 (Semesters 1–6)

TECHNICAL SKILLS

AI Tools & Generative AI: ChatGPT/GPT, Gemini APIs, Gemini, Prompt Engineering, Generative AI
AI & Machine Learning: Machine Learning, Computer Vision, Object Detection, YOLO, AI Application Development, OpenCV
Content & Creative Tools: Canva, Gemini nano banana, AI-assisted content creation, Presentations,
Programming & APIs: Python, FastAPI, REST APIs, API Integration, SQL, SQLite
Tools: Roboflow, Git, Docker

EMPLOYABILITY SKILLS

• Strong communication and English proficiency demonstrated through public speaking, presentations, writing, and student-facing communication.
• Research, problem-solving, and structured thinking developed through AI/ML projects and research collaboration.
• Content, presentation, and communication skills developed through college-level competitions, leadership responsibilities, and writing.
• Team collaboration and coordination experience across AI/ML projects and student initiatives.

EXPERIENCE

AI Research Intern — YOLOvX by WISERLI | 2025 | Remote / Palghar
• Worked on a computer-vision food detection system using the YOLO object-detection framework.
• Created and annotated a custom image dataset using Roboflow.
• Trained and evaluated an object-detection model and iterated based on performance.
• Worked as part of a five-member team to integrate the trained model into the project application.

AI Project Collaborator — WISERLI Startup | 2025–2026| Remote
• Contribute to an AI-based aerodynamic drag prediction research collaboration.
• Coordinate with a four-member project team under guidance of a Germany-based mentor and founder.

PROJECTS

AI Viva Examiner — Viva Examination System | Gemini | FastAPI
• Contributed to development of an AI-based viva examination system.
• Worked with the project team on AI-related functionality using Gemini and a FastAPI backend.

Daily Ritual — Personalized Workout App | API Integration
• Built an application that generates personalized daily workout plans through API integration.
• Implemented core features and connected application functionality with external APIs.

Smart Fridge Food Detection System | YOLO | Computer Vision
• Trained and evaluated a YOLO-based object-detection model for identifying food items in real-time.
• Created and annotated the training dataset using Roboflow and iterated on model performance.

Firefighting Robot — Computer Vision System | YOLO
• Built the computer-vision component for a firefighting robot using YOLO for candle/flame and board detection.
• Prepared and trained the custom dataset and evaluated the model for real-world detection.

ACHIEVEMENTS & ACTIVITIES

• 1st Place — Standard Presentation Competition, BIS × SJCEM (2026).
• Robotex India National Championship 2026 — Participated as part of college robotics team.

RESPONSIBILITIES

• General Secretary, Student Council — coordinated college-wide events and cross-functional student teams; supported ISRO SAC Exhibition attended by 7,000+ people.
• PR Head, AIML Departmental Committee — led outreach and communication for departmental initiatives.

LANGUAGES

English — Fluent | Hindi — Fluent | Marathi — Fluent | Gujarati — Native
